CORSTOP*

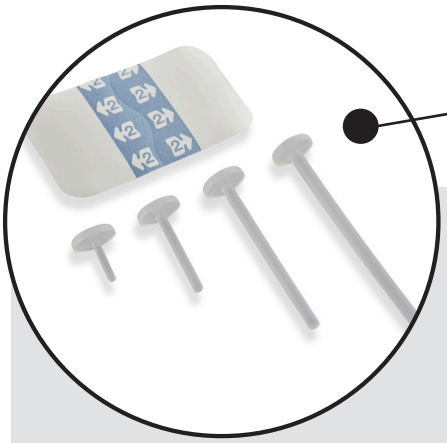
a.c.e. Stopper

AVANOS

Lessen the chance of complications

When properly maintained CORSTOP* a.c.e. Stopper lessens the chance for stomal complications.

- Creates a seal in-between catheter insertions
- Helps prevent stoma stenosis (i.e. the closing or narrowing of the stoma)



For Patients Utilizing:

- Antegrade Continence Enema (ACE)
- Malone Antegrade Continence Enema (MACE)
- Caecostomy
- Mitrofanoff
- Monti

CORSTOP* a.c.e. Stopper

Available in a variety of stem lengths and French scale diameters
